See you at the meeting next Tuesday!

WIC Brooksource Tech Talk Meeting

Tuesday September 14th, 6-7 PM in EB 1220

Elevate is an entry-level program designed to help accelerate your technical and professional growth during the first year of your career with one of Brooksource's Fortune 500 partners. Within our program at Ford Motor Company, we have established a group called "Elevate Women", whose focus is to create a network of support and empowerment while we are early in our careers. Four ladies from this group have volunteered to collaborate with MSU's WIC, to share their journeys and provide advice for anyone looking to begin a career in STEM!

Career Fairs

Tech Connect - Big 10 Women in Computing Exchange

(Virtual)

Thu, Oct 7, 2:00pm - 6:00pm EDT
https://msu.joinhandshake.com/career_fairs/27481?ref=events-search

This event is hosted and coordinated in partnership between Women in Computing groups and Computer Science inclusion programs across eight Big 10 universities to connect students engaged in these organizations with employers nationally. While the Grace Hopper Conference is a large-scale event that serves as a platform to connect and engage with employers on career opportunities, this serves as a smaller-scale path to effectively connect with fellow Big 10 students to top employers, university recruiters, and program managers.
